FAMU
STADIUM

April 18th

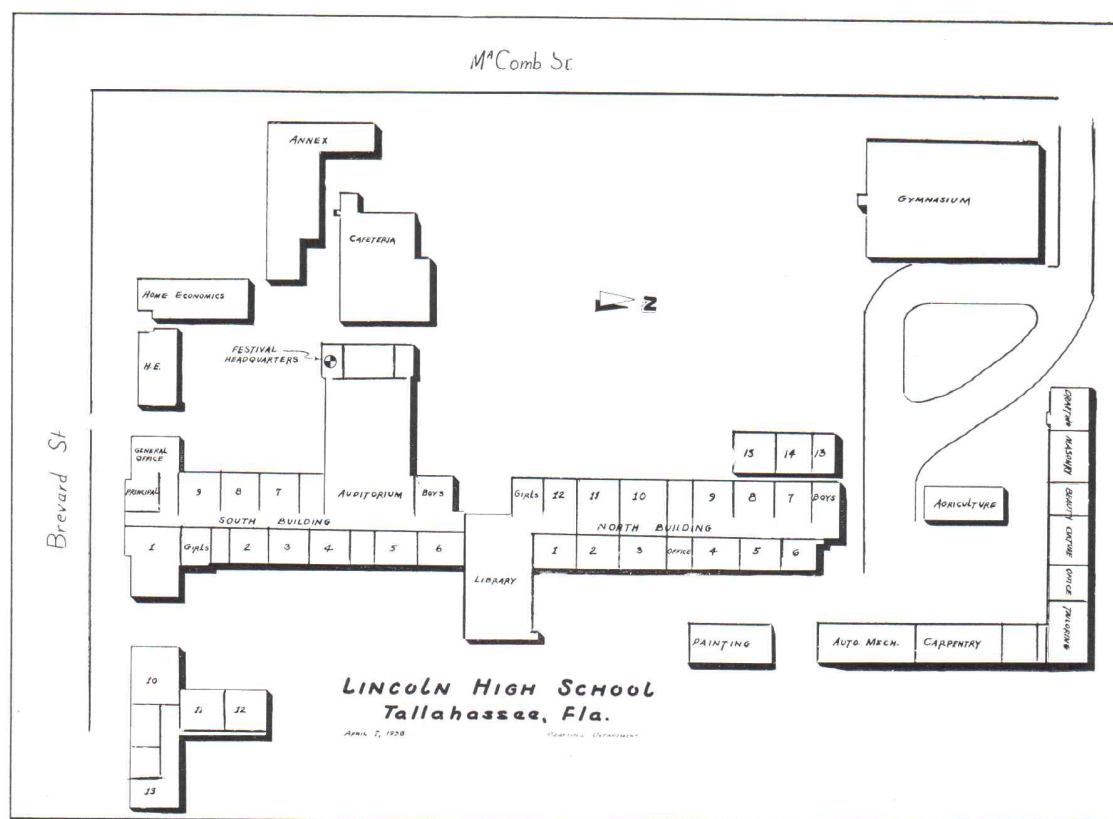

L.H.S. ART DEPT.

"The Crooms Academy H.S. Band was one of the first two NEGRO bands in the state. Principal J.W. Crooms was fortunate in securing one of the first two graduates in band music of the Florida A&M College in 1939. Professor George H. Hill thus became ^{band} director September 11, 1939. . . . Crooms Academy is proud of its record as a pioneer in band music. The first band director, Prof. G.H. Hill is now at Matthew W. Gilbert H.S. in Jacksonville, Florida, and one of our first band boys and graduates, Prof. James W. Wilson is the esteemed band director of Jones H.S., Orlando, Florida,

THE BASIS OF SCHOOL BAND COMPETITION

"The primary purpose of the school music competition is to serve as a factor in the educational program through the direct values, the inspiration, examples and incentives afforded the young people and their teachers and directors. Therefore, adjudication of participants should be regarded as a means for evaluating the progress and musical status of the group or the individual, rather than a mere comparison with other participants to secure an expert opinion of which is best, which is second best, and so on."

"This has been made possible by abandoning the "ranking" or "place" method of adjudication in favor of the now widely used rating plan, adopted by the National School Band Association some years ago."

Bands participating in the Florida State Festival are classified according to the total enrollment of the school represented and the age of the band. Adjudication against a standard, as determined by competent judges, in each class, determines the accomplishment of the organization or the individual.

Depending upon the rating received in each division of competition, bands are placed in one of five divisions: Superior, Excellent, Good, Average, Below Average. In addition, the judges, on each of their adjudication sheets for each band or individual competing, will make constructive criticism and helpful suggestions for improvement.
