

DVD Case Whiteboard Instructions

What you'll need:

- A blank DVD case for every student
- Thick white paper cut to the dimensions of the cases (10.5" x 7" for standard case)
- Eraser for every student (sock, washrag, or check Amazon for erasers)
- Whiteboard marker for every student
- Paper case to store DVDs in
- Templates cut out

For each template, cut along the line to the right to make the width the right dimension for the DVD case. Next, cut into fourths.

Before class, open the case to input the template you'd like. **Do not use your finger to slide it underneath the clean plastic.** You will stretch out the plastic. You can use up to two templates at once, one on each side of the case. You can also leave one side blank for multiple choice or written responses.
